  - **After inhalation:**
    - Unlikely route of exposure.
    - Supply fresh air; consult doctor in case of complaints.
  - **After skin contact:**
    - Generally the product does not irritate the skin.
    - Wash with soap and water.
    - If skin irritation is experienced, consult a doctor.
  - **After eye contact:**
    - Remove contact lenses if worn.
    - Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
  - **After swallowing:**
    - Do not induce vomiting; call for medical help immediately.

- **4.2 Most important symptoms and effects, both acute and delayed**
  - Blast injury if mishandled.

- **Hazards**
  - Danger of blast or crush-type injuries.

- **4.3 Indication of any immediate medical attention and special treatment needed**
  - Product may produce physical injury if mishandled. Treatment of these injuries should be based on the blast and compression effects.
SECTION 5: Firefighting measures

5.1 Extinguishing media
- Suitable extinguishing agents: DO NOT fight fire when fire reaches explosives.
- For safety reasons unsuitable extinguishing agents: None.

5.2 Special hazards arising from the substance or mixture
DO NOT ATTEMPT TO FIGHT FIRES INVOLVING EXPLOSIVE MATERIALS. Evacuate all personnel to a predetermined safe location, no less than 2,500 feet in all directions. Can explode or detonate under fire conditions. Burning material may produce toxic vapors. It is recommended that users of explosives material be familiar with the Institute of Makers of Explosives Safety Library publications. Product may explode if burned in confined space. Individual cartridges may explode. Mass explosion of many cartridges at once is unlikely.

5.3 Advice for firefighters
- Protective equipment:
  Wear self-contained respiratory protective device.
  Wear fully protective suit.
- Additional information
  Eliminate all ignition sources if safe to do so.
  Flammability Classification: (defined by 29 CFR 1910.1200) Explosive. Can explode under fire conditions. Individual devices will randomly explode. Will not mass explode if multiple devices are involved. Burning material may produce toxic and irritating vapors. In unusual cases, shrapnel may be thrown from exploding devices under containment. See 2008 Emergency response Guidebook for further information.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures
- Ensure adequate ventilation
- Wear protective clothing.
- Protect from heat.
- Evacuate area.
- Isolate area and prevent access.
- Environmental precautions: No special measures required.
- Methods and material for containment and cleaning up:
  Send for recovery or disposal in suitable receptacles.
  Dispose unusable material as waste according to item 13.
- Reference to other sections
  See Section 7 for information on safe handling.
  See Section 8 for information on personal protection equipment.
  See Section 13 for disposal information.

40.1.5 Information about fire - and explosion protection:
Protect from heat.
Emergency cooling must be available in case of nearby fire.

7.2 Conditions for safe storage, including any incompatibilities
Storage:
Requirements to be met by storerooms and receptacles:
Store in a cool location.
Avoid storage near extreme heat, ignition sources or open flame.
Information about storage in one common storage facility: Store away from foodstuffs.
Further information about storage conditions:
Store in cool, dry conditions in well sealed receptacles.
