3. Hazard identification

Emergency overview

FLAMMABLE. IRRITANT. Irritating to eyes and skin.
Contains a suspect carcinogen.
Contains a suspect teratogen.

Potential health effects

Acute toxicity:
Information on: propan-2-ol
Of low toxicity after single ingestion.
Virtually nontoxic by inhalation.
Virtually nontoxic after a single skin contact.
Inhalation-risk test (IRT): No mortality within 7 hours as shown in animal studies. The inhalation of a highly saturated vapor-air mixture represents no acute hazard.
Vapours may cause drowsiness and dizziness.
High concentrations in the air may cause narcosis.
If used as intended, this product is not expected to present a physical or health hazard.

Repeated dose toxicity:
Overexposure may cause CNS depression including headache, dizziness, nausea and loss of consciousness.
4. First-aid measures

**General advice:**
First aid personnel should pay attention to their own safety. Remove contaminated clothing.

**If inhaled:**
If difficulties occur after vapour/aerosol has been inhaled, remove to fresh air and seek medical attention.

**If on skin:**
After contact with skin, wash immediately with plenty of water and soap. Under no circumstances should organic solvent be used. If irritation develops, seek medical attention.

**If in eyes:**
In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

**If swallowed:**
Rinse mouth immediately and then drink plenty of water, seek medical attention. Do not induce vomiting unless told to by a poison control center or doctor.

Never induce vomiting or give anything by mouth if the victim is unconscious or having convulsions.

5. Fire-fighting measures

**Flash point:** 11.67 °C  
**Autoignition:** 398.89 °C  
**Lower explosion limit:** 2.0 %(%V)  
**Upper explosion limit:** 12.7 %(%V)

**Suitable extinguishing media:**
carbon dioxide, dry extinguishing media, foam, water fog

**Hazards during fire-fighting:**
carbon monoxide, carbon dioxide, harmful vapours, nitrogen oxides, fumes/smoke, carbon black

**Protective equipment for fire-fighting:**
Wear a self-contained breathing apparatus.

**Further information:**
Remove product from areas of fire, or otherwise cool containers with water in order to avoid pressure build up due to heat. The degree of risk is governed by the burning substance and the fire conditions. Contaminated extinguishing water must be disposed of in accordance with official regulations.

6. Accidental release measures

**Personal precautions:**
Use personal protective clothing. Do not breathe vapour/aerosol/spray mists. Sources of ignition should be kept well clear. Handle in accordance with good building materials hygiene and safety practice.

**Environmental precautions:**
Contain contaminated water/firefighting water. Do not discharge into drains/surface waters/groundwater.
Cleanup:
For small amounts: Pick up with inert absorbent material (e.g. sand, earth etc.). Dispose of contaminated material as prescribed.
For large amounts: Pump off product.

7. Handling and storage

Handling
General advice:
Avoid aerosol formation. Avoid inhalation of mists/vapours. Avoid skin contact. No special measures necessary provided product is used correctly.

Protection against fire and explosion:
Keep away from heat. Prevent electrostatic charge - sources of ignition should be kept well clear - fire extinguishers should be kept handy.

Storage
General advice:
Keep only in the original container in a cool, dry, well-vented place away from ignition sources, heat or flame. Protect from direct sunlight. Store protected against freezing.

Storage incompatibility:
General: Segregate from metals. Segregate from lyes. Segregate from oxidants. Segregate from foods and animal feeds.

8. Exposure controls and personal protection

Components with workplace control parameters

Personal protective equipment

Respiratory protection:
When workers are facing concentrations above the occupational exposure limits they must use appropriate certified respirators.

Hand protection:
Wear chemical resistant protective gloves. Manufacturer's directions for use should be observed because of great diversity of types.

Eye protection:
Tightly fitting safety goggles (chemical goggles).

Body protection:
Body protection must be chosen based on level of activity and exposure.

General safety and hygiene measures:
Avoid contact with the skin, eyes and clothing. In order to prevent contamination while handling, closed working clothes and working gloves should be used. Handle in accordance with good building materials hygiene and safety practice. When using, do not eat, drink or smoke. Hands and/or face should be washed before breaks and at the end of the shift. At the end of the shift the skin should be cleaned and skin-care agents applied. Gloves must be inspected regularly and prior to each use. Replace if necessary (e.g. pinhole leaks).
9. Physical and chemical properties

- **Form:** liquid
- **Odour:** alcohol-like
- **Odour threshold:** No data available.
- **Colour:** clear
- **pH value:** not applicable
- **Boiling range:** 82.22 - 104.44 °C
- **Vapour pressure:** No data available.
- **Relative density:** 0.832
- **Vapour density:** Heavier than air.
- **Partitioning coefficient n-octanol/water (log Pow):** No data available.
- **Viscosity, dynamic:** No data available.
- **% volatiles:** 600 g/l
- **Solubility in other solvents:** partly soluble

10. Stability and reactivity

- **Substances to avoid:** strong oxidizing agents, strong bases, strong acids

- **Hazardous reactions:**
  The product is stable if stored and handled as prescribed/indicated.

- **Decomposition products:**
  irritant gases/vapours, carbon oxides

11. Toxicological information

- **Carcinogenicity:**
  Information on: Ethanol

- **Developmental toxicity/teratogenicity:**
  Information on: Ethanol
  
  The potential to cause toxicity to development cannot be excluded when given in high doses.
  
  A teratogenic potential cannot be excluded.

12. Ecological information

- **Environmental toxicity**

  Other ecotoxicological advice:
  No data available for the preparation. Do not discharge product into the environment without control.

13. Disposal considerations

- **Waste disposal of substance:**
  Do not discharge substance/product into sewer system.
  Dispose of in accordance with local authority regulations.
14. Transport information

Land transport
TDG
- Hazard class: 3
- Packing group: II
- ID number: UN 1993
- Hazard label: 3
- Proper shipping name: FLAMMABLE LIQUID, N.O.S. (contains ISOPROPANOL, TETRAISOPROPYL-ORTHO-TITANATE (TYZOR))

Sea transport
IMDG
- Hazard class: 3
- Packing group: II
- ID number: UN 1993
- Hazard label: 3
- Marine pollutant: NO
- Proper shipping name: FLAMMABLE LIQUID, N.O.S. (contains ISOPROPANOL, TETRAISOPROPYL-ORTHO-TITANATE (TYZOR))

Air transport
IATA/ICAO
- Hazard class: 3
- Packing group: II
- ID number: UN 1993
- Hazard label: 3
- Proper shipping name: FLAMMABLE LIQUID, N.O.S. (contains ISOPROPANOL, TETRAISOPROPYL-ORTHO-TITANATE (TYZOR))

15. Regulatory information

Federal Regulations
- Registration status: DSL, CA released / listed

WHMIS classification: B2: Flammable Liquid
- D2A: Materials Causing Other Toxic Effects - Very toxic material
- D2B: Materials Causing Other Toxic Effects - Toxic material

THIS PRODUCT HAS BEEN CLASSIFIED IN ACCORDANCE WITH THE HAZARD CRITERIA OF THE CPR AND THE MSDS CONTAINS ALL THE INFORMATION REQUIRED BY THE CPR.
