1 IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY UNDERTAKING

1.1 GHS Product Identifier
Commercial Product Name: LITHOCHROME® Color Hardener
Chemical Name: Mixture of silica sand, portland cement, pigments and additives (or admixtures)

1.2 Relevant identified uses of product:
Product is a dry-shake color hardener for application on freshly-placed concrete to color and harden the concrete surface. This product is intended for use only by professionals.

1.3 Details of the supplier of the safety data sheet:
L. M. SCOFIELD Company
6533 Bandini Blvd, Los Angeles, CA 90040
4155 Scofield Road, Douglasville, GA 30134

Scofield Phone No. (800) 800-9900

Information Phone Number (323) 720-3000
Information Phone Number (770) 920-6000

www.scofield.com

1.4 Transportation Emergency Telephone Number:
CHEMTREC (800) 424-9300

2 HAZARDS IDENTIFICATION

2.1 Classification of substance or mixture:
Human Health:
Product contains silica sand, a form of crystalline silica. Properly fitted dust-type respirators can control silica exposure.
Product contains portland cement which when wet can irritate the skin and seriously damage the eyes.

Product may contain titanium dioxide, which is considered to be a class 2B carcinogen by IARC.

Acute toxicity, eyes, SE, H318, category 1
Acute toxicity, dermal, SE, H315, category 2
Carcinogenicity, STOT, lungs, Inhalation, RE, H350, category 1B

Environment: Product is not dangerous to the environment, upon water addition it will set to a hard mass that is not biodegradable.

2.2 Label elements:
GHS Hazard (H) Statements:
Acute Toxicity
H315--Causes skin irritation
H318--Causes serious eye damage

Chronic Toxicity
H350--May cause cancer (silicosis) repeated exposure to respirable silica. IARC lists Titanium Dioxide as a 2B carcinogen.

GHS Precautionary (P) Statements:
Prevention Precautionary Statements
P102--Keep out of reach of children
P202--Do not handle until all safety precautions have been read and understood
P280--Wear protective gloves/eye protection/face protection
P284--In case of inadequate ventilation, wear respiratory protection

Response Precautionary Statements
P301+P330+P331--IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
P302+P352--IF ON SKIN: Wash with plenty of water
P304+P340--IF INHALED: Move person to fresh air and keep comfortable for breathing
P305+P351+P338--IF IN EYES: Rinse cautiously with water for several minutes. Remove contacts and continue rinsing.
P337+P313--If eye irritation persists, get medical attention

Disposal
P501--Dispose of contents/container in accordance with applicable local/state/federal regulations

2.3 Other hazards:
No other hazards are known.
Refer to Section 16 for wording of terms

3 COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Main Constituent: Crystalline Quartz Silica Sand

3.2 Mixture:

4 FIRST AID MEASURES

4.1 Description of first aid measures:
Eye Contact: Quickly flush with plenty of clean water for 15 minutes. Remove contact lenses if easy to do. Open eyelids widely during flushing. If irritation persists, continue flushing during transport to emergency room and bring these instructions for doctor. Provide easy access to eye wash station in work area.
Inhalation: Move person to fresh air, make comfortable for breathing. Get medical attention if condition worsens.
Skin Contact: May result in skin irritation. Remove contaminated clothing. Wash skin with soap and water.
Ingestion: If swallowed, do NOT induce vomiting. Call a POISON CENTER (800) 222-1222 or 911 for instructions on first aid treatment. Transport person to emergency room and bring these safety instructions (SDS).

4.2 Most important symptoms and effects both acute and delayed:
Eye contact with cement (wet or dry) can cause serious and potentially irreversible injuries to eyes. If irritation persists after rinsing eyes, take person to emergency room for treatment.
Repeated inhalation of respirable silica over long periods of time increases the risk of developing lung disease (silicosis). Cement may have an irritating effect that is most severe when sweating. Prolonged skin contact with wet product may cause serious burns that develop without pain being felt.

4.3 Indication of any immediate medical attention and special treatment needed:
Primary routes of entry include: Inhalation (dust), Eye Contact, Skin Contact. Eye contact requires immediate first aid. Refer to SECTION 11 for more detailed information on health effects and symptoms.

5 FIRE-FIGHTING MEASURES

5.1 Extinguishing media: Use fire extinguishing media appropriate for surrounding fire.

5.2 Special Hazards arising from the substance or mixture:
Fire Hazard: Not flammable
Explosion Hazard: No explosion hazard
5.3 Advice for fire-fighting:
Use normal fire fighting protective equipment.

6 ACCIDENTAL RELEASE MEASURES
6.1 Personal precautions:
General measures: Use personal protective equipment. Provide adequate ventilation. See section 8 for additional information.
Protective equipment: Wear suitable protective clothing with eye protection and gloves.

6.2 Environmental precautions:
Avoid discharge into waterways, sewers and soil. If spill enters water, contact local authorities.

6.3 Methods and material containment and cleaning up:
Method of cleaning up: Collect material in dry state if possible. Avoid generating dust. Recover product by vacuuming, shoveling or sweeping. Use a HEPA type filter on vacuum exhaust to prevent release of particulates into air.

7 HANDLING AND STORAGE
7.1 Precautions for safe handling:
Do not breathe dust. Avoid creating or spreading dust. Handle in accordance with good industrial hygiene procedures. Always wash hands immediately after handling product. Do not eat or drink in area where product is being used. Repeated exposure to respirable silica over long time periods may cause cancer (silicosis).

7.2 Conditions for safe storage including any incompatibilities:
Store in a covered dry shaded area. Avoid all contact with water.

7.3 Specific end uses:
This product is intended for use only by professionals to color and harden freshly-placed (new) concrete surfaces.

8 EXPOSURE CONTROL/PERSONAL PROTECTION
8.1 Control Parameters

NDA = No Data Available

Personal Protective Equipment Symbols:
Respirator Selection: Particulate filter, P100, N95

8.2 Exposure controls:
Avoid breathing dust.
Corrosive: Do not get into eyes or on skin.
Engineering measures: Use only with adequate ventilation. Keep worker exposure of dust and airborne particulates below PEL & TLV limits in section 8.1

8.3 Individual protective measures:
Eye/face protection: Wear tight fitting goggles or safety glasses with side shields to protect eyes.
Skin protection: Wear protective clothing, rubber apron or coat and neoprene rubber gloves to protect skin.
Respiratory Protection: In case of inadequate ventilation, or where exposure levels are over limits in section 8.1, wear a proper NIOSH approved particulate-type respirator, such as N95 or P100 filters.
Hygiene measures: Wash hands after exposure. Remove contaminated clothing, shower and wash with plenty of soap and water. Wash contaminated clothing prior to reuse.
Environmental exposure controls: Have eye wash stations and emergency showers located near work area.
9 PHYSICAL AND CHEMICAL PROPERTIES

9.2 Other information

Other data: Specific Gravity, water = 1.0
3.0 to 5.0

10 STABILITY AND REACTIVITY

10.1 Reactivity: When water is added, hardening occurs to make a solid mass.
10.2 Chemical stability: Product reacts rapidly with strong acids causing heat evolution
10.3 Possibility of hazardous reactions: Hazardous reactions do not normally occur.
10.4 Conditions to avoid: Avoid contact with strong acids and moisture.
10.5 Incompatible materials: Water causes setting. Strong acids can react with product.
10.6 Hazardous decomposition products: No hazardous decomposition products are known.

Toxicity:

a) acute toxicity, Not classified as an acutely toxic material.
b) skin corrosion/irritation, Wet cementitious products can cause serious skin irritation.
c) serious eye damage/irritation, Wet cementitious products can cause serious eye damage.
d) respiratory or skin sensitization, Repeated exposure to respirable silica can cause serious delayed lung injury.
Portland cement can cause skin sensitization due to Chrome VI presence.
f) carcinogenicity by agency, Crystalline silica (respirable) in this product is identified by IARC, ACGIH and NTP as a potential carcinogen. The respirable silica in this product is identified by OSHA as a carcinogen or potential carcinogen.

g) reproductive toxicity, Product does not cause or contribute to reproductive toxicity
h) STOT-single exposure, Product can cause serious eye damage due to alkalinity. Single exposure is not expected to cause carcinogenicity due to respirable silica.
i) STOT-repeated exposure, Repeated exposure to respirable silica can cause silicosis, a form of cancer. Repeated exposure to respirable silica can contribute to COPD.

No chronic effects have been observed when respirable silica is below limit levels.

Product may contain titanium dioxide, which is considered to be a class 2B carcinogen by IARC.

11.1 Inhalation: Product is not an aspiration hazard.
11.2 Skin contact: Product dust has an irritating effect on moist skin. Repeated or prolonged contact with skin may cause allergic reactions in sensitive individuals.
11.3 Eye contact: Dust from mixture can cause permanent eye damage. Immediate first aid is required, followed by emergency medical attention.
11.4 Ingestion: Ingestion may cause severe irritation of the mouth, esophagus and the gastrointestinal tract. Is not likely to occur because of composition.
11.5 Specific effects: Frequent inhalation over a long period of time increases the risk of developing lung disease.

12.1 Toxicity: This product is not expected to be hazardous to the environment.
12.2 Persistence and degradability: This product reacts with water to form a solid mass that is not degradable.
12.3 Bioaccumulative Potential: No information is available on bioaccumulative potential.
12.4 Mobility in soil: No information is available on mobility in soil.

Other adverse affects: Mixture is inorganic and is not relevant for PBT or vPvB assessment

13 DISPOSAL CONSIDERATIONS
13.1 Waste treatment methods:
GHS P501-Dispose of contents/container according to applicable local/state/regional/federal regulations.

14 TRANSPORT INFORMATION
This product is not covered by international regulation of the transport of dangerous goods (IMDG, IATA, ADR, RID).

DOT: Not regulated

14.1 UN Number: Not regulated
14.2 UN proper shipping name: Not classified as dangerous goods under DOT and UN regulations.
14.3 Transport shipping class(es): Not regulated
14.4 Packing group: Not regulated.

Packaging group: Not regulated
14.5 Environmental hazards
Marine pollutant: Not regulated.
Environmentally hazardous substance: Not applicable.
14.6 Special precautions for user: None known.
14.7 Transport in bulk according to Annex II of MARPOL 73/78 and IBC Code: Not regulated.

15 REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for substance or mixture.

15.2 Chemical Safety Assessment: Not required.

For information on labeling go to section 2
There are no TSCA 12b chemicals in this product

16 OTHER INFORMATION

Before using, read Scofield Tech-Data Bulletin TD-1100 for this product, the complete package label and this SDS and Warranty. The user must be instructed in the proper work procedure and be familiar with the contents of these instructions
