1 Identification

Product identifier
Trade name: Perm-A-Barrier (PAB) VP, PAB VP LT Part A, PAB VPO, PAB VPO LT Part A
SDS ID Number: 43013
Relevant identified uses of the substance or mixture and uses advised against
Waterproofing.
Specialty construction product. Not intended for other uses

Details of the supplier of the safety data sheet
Manufacturer/Supplier:
W.R. Grace & Co. -Conn.
62 Whittemore Avenue
Cambridge, MA 02140 USA
Grace Canada, Inc.
294 Clements Road W.
Ajax, Ontario L1S 3C6 Canada
www.graceconstruction.com

Information department:
CAN: +1-905-683-8561 (24 hours)
Environmental Health & Safety
USA: +1-617-876-1400 (24 hours)
+1-800-354-5414 (8AM - 5PM) Not functional within Massachusetts
CAN: 1-905-683-8561 (24 hours)
Transport Emergency: Chemtrec +1-800-424-9300 (24 hours)

2 Composition/information on ingredients

Chemical characterization: Mixtures
Hazardous components: Not applicable.

3 Hazard(s) identification

Classification of the substance or mixture
The product is not classified according to the Globally Harmonized System (GHS).
GHS label elements Not applicable.
Hazard pictograms Not applicable.
Additional information: Avoid breathing dust.
NFPA ratings (scale 0 - 4)

- Health = 1
- Fire = 0
- Reactivity = 0

HMIS-ratings (scale 0 - 4)

- HEALTH: Health = 1
- FIRE: Flammability = 0
- REACTIVITY: Reactivity = 0

* 4 First-aid measures

**General information:** Get medical advice/attention if you feel unwell.

**After inhalation:**
Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist.

**After skin contact:**
Immediately wash contaminated skin with soap or mild detergent and water. If this chemical soaks clothing, immediately remove clothing and wash skin.
In case of skin contact, clean fingernails and wash skin with soap and water. If residue remains clean with waterless hand-cleaner or abrasive soap. Never use solvents.
If discomfort or irritation persists, consult a physician.
Remove contaminated clothing and wash before reuse.

**After eye contact:**
Rinse opened eye for several minutes under running water.
Rinse cautiously with water for several minutes.
Seek immediate medical advice.

**After swallowing:**
Wash out mouth with water
Rinse mouth.
Do not induce vomiting; immediately call for medical help.
Never give anything by mouth to an unconscious person.

* 5 Fire-fighting measures

**Special hazards arising from the substance or mixture** No further relevant information available.

**Additional information** Collect contaminated fire fighting water separately. It must not enter the sewage system.

* 6 Accidental release measures

**Personal precautions, protective equipment and emergency procedures**
Wear protective equipment. Keep unprotected persons away.
Methods and material for containment and cleaning up:
Contain and/or absorb spill with inert material (i.e. sand, vermiculite) then place in a suitable container.
Sweep up spilled product into receptacles.

Reference to other sections
See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

### 7 Handling and storage

**Handling:**
- **Precautions for safe handling**
  - Open and handle receptacle with care.
  - Use all product within 30-60 minutes of mixing to avoid an exothermic reaction (release of heat and fumes). Reaction times may vary depending upon temperature and mixing conditions.
- **Information about protection against explosions and fires:** No special measures required.

**Storage:**
- **Information about storage in one common storage facility:** No special measures required.
- **Further information about storage conditions:** Keep receptacle tightly sealed.
- **Specific end use(s)** No further relevant information available.

### 8 Exposure controls/personal protection

**Additional information about design of technical systems:** No further data; see item 7.

**Components with limit values that require monitoring at the workplace:**
The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

**Additional information:** The lists that were valid during the creation were used as basis.

**Work/Hygienic Practices:**
- Use good personal hygiene practices.
- Carbon disulfide and other potentially harmful gases, Methanol vapors and fumes may evolve as a result of exothermic reactions ("hot product") when components are mixed. Carbon disulfide may be detected by odor at about 1 ppm, but the ability to smell fatigues (diminishes) rapidly therefore, odor does not serve as a good warning property.
- If eye or respiratory irritation is present, or if a foul odor is detected, you may be experiencing exposure to Carbon disulfide and other organics. Leave the area immediately and seek fresh air.

**Personal protective equipment:**
- **General protective and hygienic measures:**
  - Avoid contact with the eyes and skin.
  - The usual precautionary measures for handling chemicals should be followed.
- **Breathing equipment:**
  - Wear NIOSH-approved respiratory protection (generally a N-95 dust/mist respirator is appropriate) to prevent employee exposures.
Respiratory protection is not normally required in well-ventilated areas. Indoors, or where ventilation is inadequate, the use of a respirator equipped with an organic vapor cartridge is required. The specific respirator may not adequately protect against exposures during some work conditions (see Section 10 of the SDS).

**Respiratory protection** is not normally required. If a vapor or mist is created, use an approved dust/mist respirator (NIOSH P95).

**Protection of hands:**
Gloves should be worn to prevent skin contact and should be impermeable and resistant to the product.

**Material of gloves**
Gloves should be worn to prevent skin contact and should be impermeable and resistant to the product.

**Eye protection:**

Safety glasses with side shield protection.

Safety glasses with side shields should be worn to prevent contact due to splashing. Under high vapor mist concentrations, tightly sealed goggles should be worn.

A face shield should also be worn if there is potential exposure to splash or spray.

**Body protection:**

Protective work clothing
Use personal protective equipment as required.
Take off contaminated clothing and wash before reuse.

### 10 Stability and reactivity

**Thermal decomposition:** No decomposition if used according to specifications.

**Possibility of hazardous reactions** No dangerous reactions known.

**Incompatible materials:** No further relevant information available.

**Hazardous decomposition products:** Carbon monoxide and carbon dioxide

**Additional information:** See section 7 for information on handling, storage and conditions to be avoided.

---

### 11 Toxicological information

**Acute toxicity:**

**Primary irritant effect:**

- **on the skin:** No irritating effect expected
- **on the eye:** No irritating effect expected

**Additional toxicological information:**

When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.

**Carcinogenic categories**

<p>| IARC (International Agency for Research on Cancer) Human Carcinogenicity: |
| Group 1-Positive, Group 2A- Probable, Group 2B- Possible, Group 3- Not Classifiable |</p>

**NTP (National Toxicology Program)**

- **K–Known to be carcinogenic, R–May reasonably be anticipated to be carcinogenic**
- **K** | Quartz (SiO2) 14808-60-7 |
12 Ecological information

**Aquatic toxicity:** No further relevant information available.

**Persistence and degradability** No further relevant information available.

**Behavior in environmental systems:**
- **Bioaccumulative potential** No further relevant information available.

**Additional ecological information:**
- **General notes:** Not known to be hazardous to water.

13 Disposal considerations

**Waste treatment methods** Comply with Federal, State and local regulations.

**Recommendation:**

- Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

**Uncleaned packagings:**

**Recommendation:** Disposal must be made according to official regulations.

14 Transport information

**UN-Number**

- DOT, ADR, ADN, IMDG, IATA: Not applicable.

**UN proper shipping name**

- DOT, ADR, ADN, IMDG, IATA: Not applicable.

**Transport hazard class(es)**

- DOT, ADR, ADN, IMDG, IATA: Not applicable.

**Packing group**

- DOT, ADR, IMDG, IATA: Not applicable.

**Environmental hazards:**

- Marine pollutant: No

**Special precautions for user**

- Not applicable.

**Transport/Additional information:** Not classified as a dangerous good for transport by road, rail or air.
**Trade name: Perm-A-Barrier (PAB) VP, PAB VP LT Part A, PAB VPO, PAB VPO LT Part A**

**15 Regulatory information**

**SARA (Superfund Amendments and Reauthorization Act)**

- **Section 302/304 (extremely hazardous substances):** None of the ingredients is listed.

- **Section 313 Reportable Ingredients (Chemicals present below reporting threshold are exempt):** None of the ingredients is listed.

- **SARA Section 312/Tier I & II Hazard Categories:**
  - Health Immediate (acute): Yes
  - Health Delayed (chronic): No
  - Flammable: No
  - Reactive: No
  - Pressure: No

**North America Chemical Inventory Status**

- **TSCA (Toxic Substances Control Act - United States):** All ingredients are listed or exempt from listing unless otherwise noted below.

- **CEPA (Canadian DSL):** All ingredients are listed or exempt from listing unless otherwise noted below.

**Right to Know Ingredient Disclosure**

- Proprietary Polymer Dispersion - NJ801416024
- 25213-24-5 vinyl alcohol/vinyl acetate copolymer
- 8031-18-3 Clay 2
- 7732-18-5 Water

**California Proposition 65**

- **Chemicals known to cause cancer:**
  - Titanium dioxide
  - Quartz (SiO2)

- **Chemicals known to cause reproductive toxicity for females:** None of the ingredients is listed.

- **Chemicals known to cause reproductive toxicity for males:** None of the ingredients is listed.

- **Chemicals known to cause developmental toxicity:**
  - 67-56-1 Methanol

**Carcinogenicity Categories**

- **EPA (Environmental Protection Agency):** None of the ingredients is listed.

- **TLV-ACGIH (THE American Conference of Governmental Industrial Hygienists):**
  - Human Carcinogen - A1 Confirmed, A2 Suspected, A3 Unknown Relevance, A4 Not Classifiable

- **NIOSH-Cancer (National Institute for Occupational Safety and Health):**
  - 13463-67-7 Titanium dioxide
  - 14808-60-7 Quartz (SiO2)
16 Other information

"The data included herein are presented in accordance with various environment, health and safety regulations. It is the responsibility of a recipient of the data to remain currently informed on chemical hazard information, to design and update its own program and to comply with all national, federal, state and local laws and regulations applicable to safety, occupational health, right-to-know and environmental protection."

Department issuing SDS:

Other Information:

There is sufficient information to conclude that the relative risk of lung cancer is increased in persons with silicosis. Therefore preventing the onset of silicosis will also reduce the cancer risk.
