

Revision date : 2015/05/22 Version: 1.0 Page: 1/10 (30605841/SDS\_GEN\_US/EN)

# 1. Identification

Product identifier used on the label

# MasterProtect P 150 pastel also THORO CM PRIMER PASTEL

# Recommended use of the chemical and restriction on use

Recommended use\*: for industrial and professional users

\* The "Recommended use" identified for this product is provided solely to comply with a Federal requirement and is not part of the seller's published specification. The terms of this Safety Data Sheet (SDS) do not create or infer any warranty, express or implied, including by incorporation into or reference in the seller's sales agreement.

# Details of the supplier of the safety data sheet

<u>Company:</u> BASF CORPORATION 100 Park Avenue Florham Park, NJ 07932, USA

Telephone: +1 973 245-6000

# **Emergency telephone number**

CHEMTREC: 1-800-424-9300 BASF HOTLINE: 1-800-832-HELP (4357)

# Other means of identification

Chemical family: No data available.

# 2. Hazards Identification

# According to Regulation 2012 OSHA Hazard Communication Standard; 29 CFR Part 1910.1200

# **Classification of the product**

STOT RE	1 (by inhalation)	Specific target organ toxicity — repeated exposure
Aquatic Acute	3	Hazardous to the aquatic environment - acute
Aquatic Chronic	3	Hazardous to the aquatic environment - chronic

# Label elements

Revision date : 2015/05/22 Version: 1.0 Page: 2/10 (30605841/SDS\_GEN\_US/EN)

	(00000011/020_0211_00/2
Pictogram:	
Signal Word: Danger	
Hazard Statement: H372	Causes damage to organs (Lung) through prolonged or repeated
H402 H412	exposure (inhalation). Harmful to aquatic life. Harmful to aquatic life with long lasting effects.
Precautionary Stateme P260 P273 P270 P264	nts (Prevention): Do not breathe dust/gas/mist/vapours. Avoid release to the environment. Do not eat, drink or smoke when using this product. Wash with plenty of water and soap thoroughly after handling.
Precautionary Stateme P314	nts (Response): Get medical advice/attention if you feel unwell.
Precautionary Stateme P501	nts (Disposal): Dispose of contents/container to hazardous or special waste collection point.

# Hazards not otherwise classified

If applicable information is provided in this section on other hazards which do not result in classification but which may contribute to the overall hazards of the substance or mixture.

# 3. Composition / Information on Ingredients

# According to Regulation 2012 OSHA Hazard Communication Standard; 29 CFR Part 1910.1200

CAS Number	Weight %	Chemical name
1317-65-3	>= 15.0 - < 50.0%	Limestone
13463-67-7	>= 10.0 - < 15.0%	Titanium dioxide
14808-60-7	>= 7.0 - < 10.0%	crystalline silica
12001-26-2	>= 1.0 - < 3.0%	Mica-group minerals
9036-19-5	>= 0.1 - < 0.2%	Poly(oxy-1,2-ethanediyl), .alpha[(1,1,3,3-tetramethylbutyl)phenyl]omegahydroxy-
26530-20-1	>= 0.0 - < 0.1%	2-octyl-4-isothiazol-3-ones

# 4. First-Aid Measures

# Description of first aid measures

# General advice:

First aid personnel should pay attention to their own safety. Immediately remove contaminated clothing.

Revision date : 2015/05/22

Version: 1.0

Page: 3/10 (30605841/SDS\_GEN\_US/EN)

## If inhaled:

If difficulties occur after vapour/aerosol has been inhaled, remove to fresh air and seek medical attention.

## If on skin:

After contact with skin, wash immediately with plenty of water and soap. Under no circumstances should organic solvent be used. If irritation develops, seek medical attention.

## If in eyes:

Wash affected eyes for at least 15 minutes under running water with eyelids held open, consult an eye specialist.

## If swallowed:

Rinse mouth immediately and then drink plenty of water, seek medical attention. Do not induce vomiting unless told to by a poison control center or doctor.

# Most important symptoms and effects, both acute and delayed

Symptoms: The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11.

Hazards: No applicable information available.

# Indication of any immediate medical attention and special treatment needed

Note to physician Treatment:

Treat according to symptoms (decontamination, vital functions), no known specific antidote.

# 5. Fire-Fighting Measures

# **Extinguishing media**

Suitable extinguishing media: foam, water spray, dry powder, carbon dioxide

Unsuitable extinguishing media for safety reasons: water jet

## Special hazards arising from the substance or mixture

Hazards during fire-fighting: carbon dioxide, carbon monoxide, harmful vapours, nitrogen oxides, fumes/smoke, carbon black

## Advice for fire-fighters

Protective equipment for fire-fighting: Wear a self-contained breathing apparatus.

#### **Further information:**

The degree of risk is governed by the burning substance and the fire conditions. If exposed to fire, keep containers cool by spraying with water. Collect contaminated extinguishing water separately, do not allow to reach sewage or effluent systems. Contaminated extinguishing water must be disposed of in accordance with official regulations.

Revision date : 2015/05/22 Version: 1.0 Page: 4/10 (30605841/SDS\_GEN\_US/EN)

# 6. Accidental release measures

## Personal precautions, protective equipment and emergency procedures

Do not breathe vapour/aerosol/spray mists. Wear eye/face protection. If exposed to high vapour concentration, leave area immediately. Use personal protective clothing. Handle in accordance with good building materials hygiene and safety practice.

## **Environmental precautions**

Contain contaminated water/firefighting water. Do not discharge into drains/surface waters/groundwater.

#### Methods and material for containment and cleaning up

For small amounts: Pick up with inert absorbent material (e.g. sand, earth etc.). Dispose of contaminated material as prescribed. For large amounts: Pump off product.

# 7. Handling and Storage

# Precautions for safe handling

Avoid aerosol formation. Avoid inhalation of mists/vapours. Avoid skin contact. No special measures necessary provided product is used correctly.

# Conditions for safe storage, including any incompatibilities

No applicable information available.

Suitable materials for containers: tinned carbon steel (Tinplate)

Further information on storage conditions: Keep only in the original container in a cool, dry, wellventilated place away from ignition sources, heat or flame. Protect from direct sunlight. Protect from temperatures below: 5 °C The packed product must be protected from temperatures below the indicated one. Protect from temperatures below: 40 °F

The packed product must be protected from temperatures below the indicated one.

# 8. Exposure Controls/Personal Protection

#### Components with occupational exposure limits

Limestone	OSHA PEL	PEL 5 mg/m3 Respirable fraction ; PEL 15 mg/m3 Total dust ; TWA value 15 mg/m3 Total dust ; TWA value 5 mg/m3 Respirable fraction ;
Mica-group minerals	OSHA PEL	TWA value 20 millions of particles per cubic foot of air ; TWA value 3 mg/m3 Respirable dust ; TWA value 20 millions of particles per cubic foot of air ;
	ACGIH TLV	TWA value 3 mg/m3 Respirable fraction;
Titanium dioxide	OSHA PEL	PEL 15 mg/m3 Total dust;TWA value 10 mg/m3 Total dust;
	ACGIH TLV	TWA value 10 mg/m3 ;

Revision date : 2015/05/22 Version: 1.0		Page: 5/10 (30605841/SDS_GEN_US/EN)
crystalline silica	OSHA PEL	TWA value 2.4 millions of particles per cubic foot of air Respirable ; The exposure limit is calculated from the equation, 250/(%SiO2+5), using a value of 100% SiO2. Lower percentages of SiO2 will yield higher exposure limits. TWA value 0.1 mg/m3 Respirable ; The exposure limit is calculated from the equation, 10/(%SiO2+2), using a value of 100% SiO2. Lower percentages of SiO2 will yield higher exposure limits. TWA value 0.3 mg/m3 Total dust ; The exposure limit is calculated from the equation, 30/(%SiO2+2), using a value of 100% SiO2. Lower percentages of SiO2 will yield higher exposure limit is calculated from the equation, 30/(%SiO2+2), using a value of 100% SiO2. Lower percentages of SiO2 will yield higher exposure limits.
	ACGIH TLV	TWA value 0.025 mg/m3 Respirable fraction;

## Advice on system design:

No applicable information available.

## Personal protective equipment

#### Respiratory protection:

Wear a NIOSH-certified (or equivalent) respirator as necessary.

# Hand protection:

Wear chemical resistant protective gloves., Manufacturer's directions for use should be observed because of great diversity of types.

## Eye protection:

Safety glasses with side-shields.

## **Body protection:**

Impermeable protective clothing

## General safety and hygiene measures:

Do not inhale gases/vapours/aerosols. Avoid contact with the skin, eyes and clothing. Avoid exposure - obtain special instructions before use. Handle in accordance with good building materials hygiene and safety practice. Wearing of closed work clothing is recommended. When using, do not eat, drink or smoke. Hands and/or face should be washed before breaks and at the end of the shift. At the end of the shift the skin should be cleaned and skin-care agents applied. Gloves must be inspected regularly and prior to each use. Replace if necessary (e.g. pinhole leaks).

# 9. Physical and Chemical Properties

Form: liauid Odour: odourless Odour threshold: No applicable information available. Colour: No data available. neutral to slightly alkaline pH value: No applicable information available. Melting point: Boiling point: No applicable information available. Sublimation point: No applicable information available. Flash point: Non-flammable.

Revision date : 2015/05/22 Version: 1.0 Page: 6/10 (30605841/SDS\_GEN\_US/EN)

Flammability:	not determined
Lower explosion limit:	No applicable information available.
Upper explosion limit:	No applicable information available.
Autoignition:	not applicable
Vapour pressure:	No applicable information available.
Relative density:	No data available.
Bulk density:	1,800 - 2,400 kg/m3
Vapour density:	No data available.
Partitioning coefficient n-	No data available.
octanol/water (log Pow):	
Self-ignition	not self-igniting
temperature:	
Thermal decomposition:	No decomposition if stored and handled as
	prescribed/indicated.
Viscosity, dynamic:	No applicable information available.
Viscosity, kinematic:	No applicable information available.
Solubility (quantitative):	No applicable information available.
Solubility (qualitative):	No applicable information available.
Evaporation rate:	No applicable information available.
Other Information:	If necessary, information on other physical and chemical
	parameters is indicated in this section.

# 10. Stability and Reactivity

## Reactivity

No hazardous reactions if stored and handled as prescribed/indicated.

Oxidizing properties: Based on its structural properties the product is not classified as oxidizing.

# **Chemical stability**

The product is stable if stored and handled as prescribed/indicated.

## Possibility of hazardous reactions

The product is stable if stored and handled as prescribed/indicated.

## **Conditions to avoid**

See MSDS section 7 - Handling and storage.

## Incompatible materials

strong acids, strong bases, strong oxidizing agents, strong reducing agents

# Hazardous decomposition products

Decomposition products: No hazardous decomposition products if stored and handled as prescribed/indicated.

Thermal decomposition: No decomposition if stored and handled as prescribed/indicated.

# 11. Toxicological information

# Primary routes of exposure

Revision date : 2015/05/22 Version: 1.0

Page: 7/10 (30605841/SDS\_GEN\_US/EN)

Routes of entry for solids and liquids are ingestion and inhalation, but may include eye or skin contact. Routes of entry for gases include inhalation and eye contact. Skin contact may be a route of entry for liquefied gases.

# **Acute Toxicity/Effects**

Acute toxicity

Assessment of acute toxicity: Virtually nontoxic after a single ingestion. Based on available Data, the classification criteria are not met.

Oral

No applicable information available.

Inhalation No applicable information available.

<u>Dermal</u> No applicable information available.

<u>Assessment other acute effects</u> No applicable information available.

## Irritation / corrosion

Assessment of irritating effects: No irritation is expected under intended use and appropriate handling. Based on available Data, the classification criteria are not met.

## **Sensitization**

Assessment of sensitization: Based on available Data, the classification criteria are not met.

# **Chronic Toxicity/Effects**

## Repeated dose toxicity

Assessment of repeated dose toxicity: This product contains crystalline silica (quartz). Prolonged or repeated inhalation of respirable crystalline silica may result in silicosis.

#### Genetic toxicity

Assessment of mutagenicity: The chemical structure does not suggest a specific alert for such an effect. Based on available Data, the classification criteria are not met.

## **Carcinogenicity**

Assessment of carcinogenicity: The chemical structure does not suggest a specific alert for such an effect. Based on available Data, the classification criteria are not met.

## Information on: Titanium dioxide

Assessment of carcinogenicity: IARC (International Agency for Research on Cancer) has classified this substance as group 2B (The agent is possibly carcinogenic to humans). In long-term studies in rats in which the substance was given by inhalation, a carcinogenic effect was observed. Tumors were only observed in rats after chronic inhalative exposure to high concentrations which caused sustained lung inflammation. In long-term studies in rats and mice in which the substance was given by feed, a carcinogenic effect was not observed. Dermal exposure is not expected to be carcinogenic.

#### Information on: crystalline silica

Assessment of carcinogenicity: In long-term studies in rats and mice in which the substance was given by feed, a carcinogenic effect was not observed. In long-term animal studies in which the substance was given by inhalation in high doses, a carcinogenic effect was observed. The substance and its compounds in the form of respirable dusts/aerosolsis classified by the German MAK commision as a category 1 carcinogen (substances that cause cancer to humans). A carcinogenic

Revision date : 2015/05/22 Version: 1.0

Page: 8/10 (30605841/SDS\_GEN\_US/EN)

effect cannot safely be ruled out. The inhalation uptake of the alveolar fraction of the fine dust may cause damage to the lungs. The International Agency for Research on Cancer (IARC) has classified this substance as a Group 1 (known) human carcinogen. NTP listed carcinogen

------

## Reproductive toxicity

Assessment of reproduction toxicity: The chemical structure does not suggest a specific alert for such an effect. Based on available Data, the classification criteria are not met.

## Teratogenicity

Assessment of teratogenicity: The chemical structure does not suggest a specific alert for such an effect. Based on available Data, the classification criteria are not met.

## Other Information

Based on our experience and the information available, no adverse health effects are expected if handled as recommended with suitable precautions for designated uses. The product has not been tested. The statements on toxicology have been derived from the properties of the individual components.

## Symptoms of Exposure

The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11.

# **12. Ecological Information**

## Toxicity

Aquatic toxicity Assessment of aquatic toxicity: Based on available Data, the classification criteria are not met. There is a high probability that the product is not acutely harmful to aquatic organisms.

## Persistence and degradability

Assessment biodegradation and elimination (H2O) Inherently biodegradable. The insoluble fraction can be removed by mechanical means in suitable waste water treatment plants. The polymer component of the product is poorly biodegradable.

## **Bioaccumulative potential**

Assessment bioaccumulation potential Discharge into the environment must be avoided.

## Mobility in soil

Assessment transport between environmental compartments No data available.

## Additional information

Other ecotoxicological advice:

Revision date : 2015/05/22 Version: 1.0 Page: 9/10 (30605841/SDS\_GEN\_US/EN)

Do not discharge product into the environment without control. The product has not been tested. The statements on ecotoxicology have been derived from the properties of the individual components.

# 13. Disposal considerations

## Waste disposal of substance:

Dispose of in accordance with national, state and local regulations. Residues should be disposed of in the same manner as the substance/product. Do not discharge into drains/surface waters/groundwater.

# Container disposal:

Contaminated packaging should be emptied as far as possible; then it can be passed on for recycling after being thoroughly cleaned.

# 14. Transport Information

Land transport USDOT

Not classified as a dangerous good under transport regulations

Sea transport IMDG

Not classified as a dangerous good under transport regulations

Air transport IATA/ICAO

Not classified as a dangerous good under transport regulations

# 15. Regulatory Information

## **Federal Regulations**
