Admixture Certification of Compliance

Re: Accelguard NCA

To Whom It May Concern:

The Euclid Chemical Company hereby certifies Accelguard NCA to be an accelerating, water-reducing admixture for concrete. This admixture does not contain calcium chloride or added chloride ions other than those present in water. This admixture is compatible with air entraining admixtures, HRWR admixtures (super plasticizers), and conventional water reducing admixtures. Accelguard NCA is formulated to comply with ASTM C-494, Type C and E admixture.

Sincerely,

A handwritten signature in cursive script that reads "Jennifer Crisman".
